

# Senior Backend Engineer

## Description

Zerion is a wallet for everything onchain. It's the safest & easiest way to explore web3. We are looking for a talented and driven backend engineer with system design and architecture experience. This position entails complete remote work, encompassing the end-to-end process of designing, building, and scaling critical infrastructure services for a large user base of hundreds of thousands. What you will do Write well-structured, and efficient code contributing to the development of new services and features. Identify bottlenecks and optimize existing infrastructure. Shape the direction of the platform, making architectural decisions and driving the innovation. Participate in the planning of technical tasks and code reviews. Be an integral part of a dynamic team, willing to take the initiative and contribute to the continuous improvement and growth of the Zerion platform. What we are looking for 5+ years of experience in designing & building distributed backend systems. Solid knowledge of basic algorithms, data structures, and design patterns. Familiarity with Blockchain systems, dApps, and smart contracts. Willingness to work in a fast-paced startup environment. Desire to take an active part in our product evolution. You're likely to succeed if you have Excellent knowledge of Golang. Experience with containerized systems: Docker & Kubernetes. Experience with SQL / NoSQL databases: Postgres, MongoDB, Cassandra. Experience with monitoring tools: Sentry, Prometheus, and Grafana. Experience with AWS (Amazon Web Services). Experience with Python3. You are likely a perfect candidate if You are an active Web3 user. You have worked with time-series data and specialized databases: ClickHouse, TimescaleDB, etc. You have pet projects and/or open-source contributions. You have participated in the industry conferences. Why You Should Join Culture: Our high engagement and low turnover emphasize our commitment to a positive culture, with a remarkable retention rate of 92%. People: Collaborate with some of the most driven and intelligent individuals in the crypto space. Salary & Benefits: Receive a competitive salary, medical insurance, coworking membership, and additional benefits. Unlimited Days Off and Flexible Work Schedule: Recharge and explore life outside the office with our flexible time-off policy and work schedule. Stock Options: Contribute to Zerion's success and watch your stock options become valuable. Relocation: We support relocation for you and your family. Travel: Join your colleagues on trips to industry festivals and events. Distributed Team: Zerion is a fully remote team with members worldwide. Embrace asynchronous collaboration, find your own work rhythm, and enjoy a healthy work-life balance.
