

Front End Engineer

Description

Exodus and 3Zero are looking for a Front-End Engineer who is passionate about crafting high-quality, engaging user interfaces. Your role will be to convert stunning designs into functional web and mobile applications. We are specifically looking for a dynamic and innovative engineer excited by the challenges of integrating and enhancing user-facing features and joining a collaborative team dedicated to revolutionizing digital wallets. What You Will Do Convert Figma designs into React components for both desktop and mobile environments. Implement complex animations and create responsive UI components without the need for third-party libraries. Collaborate with the design and engineering teams to integrate new features into our wallet products and enhance the wallet SDK. Utilize React, Redux, and React-Native to maintain and improve application performance and usability. Actively participate in code reviews and maintain a high standard of code quality and reliability. Who You Are Strong skills in React and Redux, with expertise in React-Native animations. Proficient in CSS, capable of designing custom and complex user interfaces. Knowledgeable in SVG and Canvas, with the ability to independently create engaging animations. Skilled in optimizing React component performance and data selectors. Experienced in conducting unit tests and effectively managing technical debt. Able to independently make decisions and drive codebase improvements. Excellent communicator, proficient with tools like Slack, Asana, and GitHub. A Plus Experienced with Figma for design-to-code conversion. Familiar with Electron for desktop applications. Passionate about cryptocurrency. Knowledgeable in react-native-skia and similar libraries. About Exodus and 3Zero Exodus is a multi-asset cryptocurrency wallet with a built-in exchange feature. We started our movement in 2015 and have been a distributed team since then. 3Zero, the Exodus-owned creative subsidiary, was created in 2023 to focus on being a creative powerhouse. The Exodus and 3Zero mission is the same: to help half of the world exit the traditional financial system and move into the crypto financial system by the year 2030. What We Offer Freedom to work wherever you want, whenever you want. Building the future. Cryptocurrencies lay the foundation to the internet of value, the next major wave in application technology and personal finance. Collaborative and feedback-driven culture. Opportunity to grow. Fair pay, no matter where you live 100% pay in Bitcoin with a buffer to account for price changes and exchange fees. All the tools you need to do the job Our Hiring Process To apply, we'd love to learn more about you. Please answer our application questions! Submitting a resume is optional. Our hiring process consists of several different stages. Recruiter Interview: If we like your initial application, expect to schedule an interview with a member of our recruitment team. This interview will focus on getting to know you a bit more and will focus on explaining the culture of the company. We want to know more about why you want to join our team, how you feel about our mission and cryptocurrency now and how it fits into your overall career plan to make sure this is the right place for you. Assessments: Not every role consists of an assessment but if yours does it will be directly related to the job you apply for. Interview with your future manager: This is to make sure that you are a fit for the role you are applying to and to explore your career history. In this interview, we'll learn more about the hard and soft skills you possess to help determine if you'd be a good fit for us. Please mention the word ****ATTUNE**** and tag `RMzQuODYuMTYzLjE1Mg==` when applying to show you read the job post completely (`#RMzQuODYuMTYzLjE1Mg==`). This is a beta feature to avoid spam applicants. Companies can search these words to find applicants that read this and see they're human.
