Software Engineer

Description

At River Financial, we have made a commitment to building financial solutions that power a transparent and efficient global economic system made possible by Bitcoin. To that end, we have built leading Bitcoin brokerage, mining, and custody products to keep our clients ahead of the curve. We aim to bring premier Bitcoin banking solutions that offer a full array of financial services to our clients. We are seeking a Software Engineer with a foundational understanding of software development, a keen interest in Elixir (Phoenix and LiveView), and a strong desire to contribute to our robust web stack. At River, we prioritize both hard skills and shared values. We are looking for a candidate who is dedicated, eager to learn, and able to embrace challenges. You will be part of a team that develops features used by clients daily, contributing primarily to our Elixir, Phoenix, and LiveView codebase, with occasional work in JavaScript. River is headquartered in Columbus, OH, and has raised more than $50 million from leading investors, including; Goldcrest, Kingsway, Polychain, M13, DG, and Valor. What you will be doing Contribute to the development of new features and products in our Elixir-based web applications and API Collaborate closely with product management for planning and scoping new initiatives Write high-quality, tested code with an understanding of web security fundamentals Participate actively in code reviews What we look for in you Understanding of software engineering fundamentals Exposure to or eagerness to learn Elixir, Phoenix, and LiveView Ability to take ownership and write reliable, high-quality code At River, we provide a supportive environment with adequate supervision and coaching, but we also value independence. We expect you to manage your tasks effectively, ask for help when needed, and consistently strive for improvement. Nice to haves Prior fintech experience Familiarity with Postgres and Kubernetes Interest or experience in working at a rapidly scaling company Curiosity or interest in Bitcoin Our mission at River is ambitious, but we believe in our team and value the individual growth and contributions of each member. If you are passionate about building robust financial solutions and are excited about Bitcoin, youâ??ll fit right in. Location & Salary 100% remote option available, with offices in SF, NYC, and Columbus Salary range between $120,000 – $150,000 based on skills and experience Significant equity stock options Medical, Dental and Vision Benefits Unlimited PTO Parental Leave separate from PTO policy 401k Please mention the word **ACCOMPLISH** and tag RMzQuMTUwLjIyMy4yOA== when applying to show you read the job post completely (#RMzQuMTUwLjIyMy4yOA==).
