

## Senior Frontend Engineer Zora

### Description

About Us ZORA is a group of individuals working towards a new paradigm for creators by enabling the creation, curation, and collection of NFTs. We believe that by enabling a more equitable system for creators and communities, we will fundamentally rediscover the power of the internet. Weâ€™re working tirelessly to make ZORA available to as many creators as possible. Our mission is to build a new creator and community-owned economy. Who we're looking for ZORA is looking for experienced frontend engineers to help design, implement, and extend the ZORA ecosystem. What you'll do Collaborate with engineering & product teams to build toward our shared vision Deliver & own features and projects from beginning to end Work closely with our design teams to implement and collaborate to deliver new features and experience for the creator tool Inject your energy and perspective into every product meeting, standup, and interaction, both within the team and around ZORA's broader community Interact with our APIs, SDKs & zoraOS tools to build modular, efficient & hardened front end products Skills we're looking for Solid understanding of React, component architecture An eye for detail A collaborative approach to problem solving Adept communication skills We'd love it if you had Experience working with web3 Vercel experience Typescript expertise Past contributions to open source libraries Benefits ZORA provides top quality medical, dental, and vision insurance, with a flexible time-off policy and a new Macbook Pro for full-time employees. Employees also receive equity. Location ZORA is international. Our headquarters are the internet and we have employees all over the world. Weâ€™re currently in Atlanta, Berlin, Lisbon, Los Angeles, New York, San Francisco, Sydney, and Vancouver. Please mention the word **\*\*PRODUCTIVE\*\*** and tag `RMTA3LjE3OC4yMDAuMjA0` when applying to show you read the job post completely (`#RMTA3LjE3OC4yMDAuMjA0`).
