

## Senior UI Designer

### Description

About We're building Omni: a platform allowing developers to deploy applications across all rollups without fragmenting liquidity. We're looking for early team members to help us bring this ambitious vision to life. We're a team who already built a platform that processed over \$70M leading to our \$18M fundraise from top investors including Pantera, Two Sigma Ventures, Coinbase Ventures alongside angel investors including Stani Kulechov (founder of Aave), Sandeep Nailwal (cofounder of Polygon) and more. In addition to this we have over \$4B deposited to secure Omni on mainnet. We are growing rapidly and we need ambitious and experienced team members to join us to help scale Ethereum's future. About the role As a Senior UI Designer at Omni, you will take the lead in crafting user-centric designs for our products across the Omni stack including our website, documentation, explorers, and other applications built within the Omni ecosystem. Responsibilities Design intuitive and visually appealing user interfaces for our suite of products. Collaborate with frontend engineers to ensure designs are implemented with precision, maintaining high fidelity to the original specifications. Develop comprehensive design systems and standards to be used across the company to ensure consistency and quality in design. Create wireframes, mockups, and prototypes to illustrate design concepts and facilitate discussions within the product team. Ensure that all designs are optimized for a wide range of devices and interfaces. Document design processes and guidelines to enhance developer and designer collaboration within Omni. Contribute to the strategic planning of new features and improvements based on market trends and user feedback. Perform product reviews and stay up to date with the latest trends in web3 design. Requirements 5+ years of experience in product design, with a strong portfolio featuring examples of interaction design work. Proficient in design tools such as Figma. Experience in designing for web3 platforms, with an understanding of the technical limitations and possibilities. Strong knowledge of user-centered design methodologies and usability principles. Ability to work closely with developers to understand technical constraints and opportunities. Excellent communication and collaboration skills to work effectively with cross-functional teams. Location: Must be in the New York (EST) or Europe (CET) time zones. Overlap Hours: Available daily from 9 AM to 12 PM EST for team collaboration. Competencies Customer centric orientation: actively thinks about how to improve the developer experience of building on Omni Autonomous: specifically seeks to take greater ownership and responsibility and thrives in their personal growth by doing so Action oriented: we are looking for people who take action by default, consistently driving forward progress without asking for permission Adaptable: thrives in ambiguity, able to quickly iterate and push forward as the business dynamically expands Highly intelligent: learns quickly and can participate in abstract intellectually engaging conversations Effective communicator: clearly articulates ideas and engages in debates in a productive manner that leads us to making better decisions Nice to Haves Previous design work with cross chain applications and an understanding of how to improve the developer experience. Benefits Our benefits include competitive compensation, token packages for all employees, regular team off-sites around the world and unlimited PTO. In addition, you'll join a team of high-caliber people innovating at the frontier of crypto that work collaboratively to help one another accelerate their personal growth. Values We are a mission driven company. We believe deeply that through software engineering we can build a self-sovereign society. In our day to day, we make decisions based upon our company values and operating principles: Company values Customer centricity Long-term orientation Courage Operating principles High-trust & autonomy Kindness & respect Collaboration Humility & low-ego Transparency Data driven
