### Description

What we do and who we are? We are the leading regulated digital assets institution with \$15+ billion in assets under management. Our reputation in the blockchain world is built on signature products â our Instant Crypto Credit Linesâ and Earn on Crypto suite created with the promise of redesigning finance. Three years on, we give over 2M+ people worldwide access to fast, cost-effective, and tax-efficient funding. We always stay ahead, solving complex problems for our constantly growing user base, and we have the customer reviews to show for. Humanising the face of finance, weâve zeroed in on solving real issues for our users and found a great product market fit. The result is a profitable business from Day 1 that has distributed close to \$30M in dividends until now. With a bold team of builders and problem solvers, Nexo unlocks the power of crypto and forges the path to truly blockchain-based, deflationary, and limitless finance and the new order that will come with it.
