Lead Product Designer

Description

Wirex is seeking an experienced Lead Product Designer for our Product department. Join our product team if youâ??re keen to solve business and users' problems and create high-level design solutions.Â Who we areÂ Weâ??re Wirex, and weâ??re not like anyone else. Why? Because we always do things our way, before anyone else does them â?? like creating the first ever debit card that lets you pay with crypto, making it easier for ordinary people to access DeFi-powered savings, and setting up the worldâ??s first cryptocurrency rewards scheme.Â Â Â Our vision is a world in which everyone can enjoy the benefits of digital currency â?? everything from the power to send money around the world near-instantly without breaking the bank to buying, storing, and exchanging 130+ top tokens on a secure, easy-to-use platform at some of the best rates in the industry.Â Â Â We must be doing something right because more than 5.5 million people across 130 countries are helping to change the world by using Wirex. What Youâ??ll Be DoingÂ â?? Crafting Interaction Excellence: Deliver top-tier interaction design across our mobile and web platforms.Â â??Â Data-Driven Design Insights: Utilize both qualitative and quantitative data analysis to deeply understand user needs and behaviors, guiding the design process to enhance user experience.Â â??Â Driving Design Projects: Engage from concept to execution, ensuring final designs are polished and ready for deployment.Â â??Â Leading Design Reviews: Conduct sessions to critique designs, uncovering areas for enhancement.Â â??Â Empathy and Insight: Deeply understand our customers by leveraging both qualitative and quantitative data.Â â??Â Establishing Design Systems: Collaborate with our development team to implement a comprehensive design system.Â â??Â Collaborating Effectively: Partner with stakeholders, developers, andÂ product owners to deliver seamless user experiences.Â RequirementsÂ â??Â At least 4 years in Product or UI/UX design, with preference given to fintech industry experience.Â â?? Minimum of 1 year in a team leadership role.Â â??Â At least 1â??2 years of hands-on experience with Amplitude, utilizing it to analyze user interactions and behaviors. You should be adept at setting up tracking, creating dashboards, and deriving actionable insights to inform design improvements.Â â?? Skilled in Figma and Adobe Creative Cloud (primary Ai, Ps, Ae), with expertise in a prototyping tool of your choice.Â â?? Deep understanding of Human Interface and Material Design Guidelines.Â â?? Excellent communication and presentation skills, capable of managing multiple projects simultaneously.Â â??Â Advanced proficiency in English, both spoken and written.Â BenefitsÂ â??Â Premium tariffs for our product.Â â??Â Semi-remote work with flexible hoursâ??work from home orÂ office.Â â??Â Home office allowance.Â â??Â Virtual share options scheme after the probation period.Â â??Â Comprehensive medical insurance after one month ofÂ collaboration.Â â??Â Generous vacation policy: 23Â business days ofÂ paid leave + 12Â paid floating holidays.Â â??Â Paid sick leave, Birthday, and Anniversary leave.Â â??Â Length ofÂ Service Holidays.Â â??Â Engaging inÂ online events for learning and enjoyment.Â â??Â Coworking with all facilities and shelter.Â Please mention the word **NEAT** and tag RMTUxLjgwLjE0My4yMDY= when applying to show you read the job post completely (#RMTUxLjgwLjE0My4yMDY=).
