Cosmos Blockchain Developer

Description

Agoric is an open-source software development company bringing better security and composability to the decentralized financial infrastructure of today. Agoric is built on a JavaScript library of reusable, composable components coded by experienced community members. Our secure JavaScript smart contract platform allows developers to rapidly build secure applications on top of an ever-growing collection of reusable governance, lending, and trading components. About The Role Our engineering team is looking for a senior software engineer/architect to design, implement, and maintain our integration with key technologies, including CometBFT, Cosmos SDK, IBC, Moddable XS, NodeJS, and validator infrastructures. As an ideal candidate, you are a self-starter, a fast learner, and a believer in our mission. You will work with a team of exceptionally talented and experienced developers in other fields. What You Will Be Doing Maintain and enhance the integration with Cosmos Interchain Stack: Cosmos SDK, CometBFT, IBC-go Lead our integration with Ethereum and other non-Cosmos ecosystems Incorporate & adapt message-passing solutions like IBC & GMP into the Agoric stack Work with external teams to drive advancements into IBC and other protocols Advise and work with partners, customers, and validators as needed to help them succeed at applying the Agoric platform to their business challenges Participate in cross-company discussions and planning sessions, providing insight from working with customers and applying our technology to customer challenges What We Look For In You: BS, MS in Computer Science, Software Engineering, other relevant disciplines, or equivalent professional experience 7+ years in software development 3+ years working with Golang 1+ years working with the Cosmos Interchain Stack Experience working on open-source projects Nice to Haves Demonstrated interest in decentralized markets, blockchain technology, and smart contracts. Working knowledge of high-profile projects and competitive offerings Experience with Javascript products Agoric is committed to diversity in its workforce and is proud to be an equal opportunity employer. Agoric does not make hiring or employment decisions on the basis of race, color, religion, creed, gender, national origin, age, disability, veteran status, marital status, pregnancy, sex, gender expression or identity, sexual orientation, citizenship, or any other basis protected by applicable local, state or federal law.
