

Senior Lead Product Designer

Description

Wirex is seeking a highly skilled Senior/Lead Product Designer who will take charge of delivering top-notch interaction design for our mobile and web platforms. This role involves leading design projects, conducting in-depth user research, and collaborating closely with cross-functional teams to create seamless user experiences. Who we are Weâre Wirex, and weâre not like anyone else. Why? Because we always do things our way, before anyone else does them âlike creating the first ever debit card that lets you pay with crypto, making it easier for ordinary people to access DeFi-powered savings, and setting up the worldâs first cryptocurrency rewards scheme. Our vision is a world in which everyone can enjoy the benefits of digital currency âeverything from the power to send money around the world near-instantly without breaking the bank to buying, storing, and exchanging 130+ top tokens on a secure, easy-to-use platform at some of the best rates in the industry. We must be doing something right because more than 5.5 million people across 130 countries are helping to change the world by using Wirex.

Key Responsibilities

- Interaction Design Leadership: Lead the creation of intuitive and engaging interaction designs across our platforms.
- User Research: Utilize both qualitative and quantitative research methods to gain deep insights into user behaviors and needs.
- Project Management: Oversee the entire design process from concept to execution, ensuring high-quality deliverables.
- Design Critiques: Conduct and lead design review sessions to identify areas for improvement.
- Customer Empathy: Develop a deep understanding of our users through comprehensive data analysis and user research.
- Design Systems: Collaborate with development teams to establish and maintain a comprehensive design system.
- Cross-Functional Collaboration: Work effectively with stakeholders, developers, and product managers to ensure design feasibility and alignment with business goals.

Requirements

- At least 4 years of experience in Product or UI/UX design, with a preference for candidates with fintech industry experience.
- Minimum of 1 year in a team leadership role, with experience in mentoring and guiding junior designers.
- A strong portfolio showcasing real product design cases, demonstrating problem-solving skills and innovative design solutions.
- Proficiency in Figma and Adobe Creative Cloud (including Illustrator, Photoshop, and After Effects), as well as expertise in a prototyping tool of your choice.
- Experience with tools like Amplitude for analyzing user interactions and deriving insights to inform design improvements.
- Deep understanding of Human Interface and Material Design Guidelines.
- Excellent communication and presentation skills, with the ability to manage multiple projects simultaneously.
- Advanced proficiency in English, both spoken and written.

Benefits

- Premium tariffs for our product.
- Semi-remote work with flexible hoursâwork from home or office.
- Home office allowance.
- Virtual share options scheme after the probation period.
- Comprehensive medical insurance after one month of collaboration.
- Generous vacation policy: 23 business days of paid leave + 12 paid floating holidays.
- Paid sick leave, Birthday, and Anniversary leave.
- Length of Service Holidays.
- Engaging in online events for learning and enjoyment.
- Coworking with all facilities and shelter.
