UX Designer Canada Wide

Description

Say hello to Newton! The innovative platform that redefines cryptocurrency trading for Canadians. We are on a mission to make financial freedom an accessible reality to every Canadian. We want to empower our customers with the tools and knowledge they need to successfully navigate the world of Crypto. Picture yourself collaborating with a team spread across Canada, yet seamlessly operating in a fully remote capacity. At Newton, distance is not a barrier: itâ??s an opportunity for collaboration and innovation to thrive. Are you ready to be a part of something bigger? Join a team of driven individuals dedicated to pushing the limits of whatâ??s possible. Some of our values:â?? Customer first mindset – Commitment to integrity and transparency to our users!â?? A dynamic team fueled by collaboration uniting our strengths to overcome any obstacles. Together we build success. We persevere, adapt, and come back stronger, turning obstacles into opportunities.â?? We strive for continuous improvement and embrace creativity and encourage experimentation. We push the boundaries of whatâ??s possible and continuously explore new ideas, technologies, and solutions.Role Overview:We are searching for a UX Designer, a role focused on enhancing and expanding our core product and user experience. Your mission: Collaborating with cross-functional teams youâ??ll create seamless user journeys and advocate for user centric design. We value speed, collaboration and ownership.nResponsibilities will include:Design innovative solutions for mobile (iOS/Android) and web appsDevelop detailed storyboards, mock-ups, and prototypes to convey design ideasCollaborate with product, engineering, and other teams to create low and high-fidelity mock-ups (in Figma)Rapidly iterate on designs based on feedback, moving from low to high-fidelity mock-ups quicklyContinuously improve brand and design qualityConduct user testing and interviews to understand user needsOptimize and simplify user experience and interface designWho you are:Experienced in collaborative, multidisciplinary teams and working directly with developersBachelor's degree in design, HCI, or 5+ years of equivalent professional experience5+ years as a UX designer, UI designer or product designerHighly proficient in FigmaStrong knowledge of usability principles and techniquesStrong written and verbal communication skillsSelf-starter and highly motivatedExperience working in a startup, cryptocurrency, trading, or consumer financenAt Newton, we celebrate our inclusive work environment and welcome members of all backgrounds and perspectives to apply.
