Corporate Security Analyst

Description

About Swirlds Labs: Swirlds Labs is a fast-growing software company committed to supporting, developing and servicing Hedera, an open source, proof-of-stake platform. Hedera is EVM-compatible and has been specifically built to meet the needs of enterprise and Web3 applications, which require speed, security, stability and sustainability. Hederaâ[][]s public network is governed by industry-leading organizations, spanning 11 sectors and 14 regions who oversee the development and direction of the decentralized platform. About Swirlds Labs: We are a fast-growing company built around a revolutionary technology â[][] the hashgraph consensus algorithm. Hedera Hashgraph is well-suited to become the worldâ[][]s first mass-adopted distributed public ledger because it is blazing fast, highly secure, and ensures fairness. We are on a mission to create a trusted and empowered digital future for everyone; a cyberspace where you work, play, buy, sell, create, and engage socially; where you have safety and privacy in your digital communities; where you feel confident when interacting with others; where you own and control your information. Join us and say, â[][]Hello future.â[][] About the role: Corporate Security Analyst will provide for the welfare and physical protection of the employees and assets. The CSA will be tasked with evaluating and maintaining the security of physical offices and infrastructure while also being tasked with performing executive protection assignments locally, nationally, and abroad.
